I'll Be Good To You

Vanessa Williams

I want to know just how you feel
Said I wanna know if what you feel is real
'Cause there is a reason for the things that I say
I wanna love you, boy, in a special way
We've been together for so very long
I would hate to break up, break up my happy home
The way we stand and the way we lie
The way we love and the way we cry
Of all these things there lies a tie
Makes me feel that it's worth a try
I'll be good to you, I'll be good to you, baby
I'll be good to you, good to you, good to you
I'll be good to you, good to you, good to you
I'll be good to you, good to you, good to you
I'll be good to you, good to you
We've been together for a very long time
I want to make up, I'll be yours, you'll be mine, baby
So take a step, now and let me know how
All of your ways, boy, and all your know-how
The way we stand and the way we lie
The way we love and the way we cry
Of all these things, there lies a tie
Makes me feel that it's worth a try
I'll be good to you, sweet baby, I'll be good to you
I'll be good to you, baby, yeah, I'll be good to you
I'll be good to you, good to you, good to you
I'll be good to you, good to you, good to you
I'll be good to you, good to you, good to you
I'll be good to you, good to you
I'll be good to you, good to you, good to you
I'll be good to you, good to you, good to you
I'll be good to you, good to you, good to you
I'll be good to you, good to you
I'll be good to you, good to you, good to you
I'll be good to you, good to you, good to you
I'll be good to you, good to you, good to you
I'll be good to you, good to you
