It's So Late

Spooky

It's so late
I wanna talk to you
There's so much to say
But my lips don't move
I don't need to fill up the space

I look up to the sky

I drive through the night
Looking out for only ghost
In the little ...
Each breath feels so close
All that I want to be,

I see it in your eyes
I see it in your eyes

Clearer than a raindrop
O I'm so satisfied

I see it in your eyes
I see it in your eyes

It's not too late
To begin again
Make the change
Forgive forget

We don't need to fill up the space

There's places that i want to go
Take me babe
Wont you follow your heart this time

I see it in your eyes

All that I want to be
All that I want to be
All that I want to be

I see it in your eyes
