Break the ice

Kim-Lian

We're gonna break break break through the ice tonight
We're gonna take take take what we want this timeTogether we are strong
If we are holding on, to all the secrets of life.
The power is within'
It's more than everything
You have no reason to hideAnd you know, we are united wherever we are
The sky is the limit, now reach for the starsWe're gonna break break break through the ice tonight
This time we're taking it higher
We're gonna take take take what we want this time
I know you ready for more
We're gonna break break break break the ice
We're gonna break break break break the iceSo keep the spirit high., cuz we were born to fly
There ain't no stopping us now
The fire burning strong, this is were we belong
We do it all for the showAnd you know, we are united wherever we are
The sky is the limit, now reach for the starsWe're gonna break break break through the ice tonight
This time we're taking it higher
We're gonna take take take what we want this time
I know you ready for more
We're gonna break break break break the ice
We're gonna break break break break the iceSo believe in yourself
There ain't no one else, who can do things you do
If you follow your dreams, I know it comes true(We're gonna break break break break break)We're gonna break break break through the ice tonight
This time we're taking it higher
We're gonna take take take what we want this time
I know you ready for more (I know you ready)
We're gonna break break break break the ice
We're gonna break break break break the iceWe're gonna break
