

# All Over Again (Desi Mix Instrumental)

[Zack Knight](#)

I see your body talking to me its saying  
Hey come over here (come, come over)  
So let me break the ice show you what i'm like  
When we get up out this atmosphere (ah-atmosphere) So grab your coat cause we're leaving now  
Girl where your going is out-out of town  
Lets tear it up all night and if you want more  
Then baby you can come back tomorrow and... We can do it all over, over again  
And we can do it all over, over again x2 Right foot down and my head held high  
We'll be moving so fast its like we're touching the sky  
Girl you'll be out of breathe till the sweat drips of your neck  
Feel the adrenaline rush, rushing through your chest So grab your coat cause we're leaving now  
Girl where your going is out-out of town  
Lets tear it up all night and if you want more  
Then baby you can come back tomorrow and... We can do it all over, over again  
And we can do it all over, over again x2 Girl lets leave before it gets too late  
Its now or never  
Let me be your midnight escape  
Lets make this a night to remember So we can do it all over,  
over, over x8 We can do it all over, over again  
And we can do it all over, over again x2
