

Song for R

Chixdiggitt

My dad said that every guy
Should get to meet a girl like you
I guess it's true, now I met you
Let me get on with my lifeSomeone told me that I never had a problem
Until I met you
I guess it's true, now I got one
Let me get on with my lifeYou know I try to run away
But you call me twice a day
To say how funny you are
Let me get on with my lifeMy mom said she wanted you out of the house
Just 'cause nobody likes you
I know it's not clever
But she don't watch Saturday night live like you doYou know I try to run away
But you call me twice a day
To say how funny you are
Let me get on with my lifeLet me get on with my life
Let me get on with my life
Let me get on with my life
