Marshall done called me to 54 and laced the track

My bad, almost forgot to introduce myself  
My name is Trick Trick, head of the Goon Squad  
And gangsta been bangin' the underground since '95, we're bangin'  
Elected to be the villain and certified a menace  
Holdin' it down since I paroled up outta prisonYou heard about me, you just didn't know it was me

All the treacherous, evil deeds of the D you never see  
Pickin' that kid up in the game, I just wasn't chasin' the fame  
I been chasin' the paper product and givin' lames the pain  
Accusations of violence you know you done heard of that  
A quarter of a million dollars for beatin' a murder rap  
And my boy holdin' me up, Shady done put it out

Trick Trick and Eminem, Detroit back in the house  
Where's my gangstas and all my thugs  
Throw them hands up and show some love

From now on every beef that you get in, homie, I'm in it

I been whippin' on motherfuckers for the longest time  
So it's evident, it's time for Trick to get it fast  
The public, see they appreciate my criminal past  
Authorities tried to stop me but they couldn't keep up

Got a fan-base that's bigger then an average star  
I'm satisfied with it bein' my time to shine  
And I freak from the precinct for violent crimes  
I ain't sayin' the shit that I'm sayin' so girls can fear me  
Only speakin' on what I know so the world can hear me  
So peace to Jimmy and Dre for signin' my nigga  
He reached back to Detroit and grabbed a winner  
So the gangstas and thugs, we embrace with love

And beat the hell outta anybody that fuck with us  
Where's my gangstas and all my thugs  
Throw them hands up and show some love  
And I welcome you to Detroit City
