

The Beast (Inside of You) [Live]

Lena Katina

Clouds obscure the sky
Nowhere to fly
Breathe and close your eyes
Don't say goodbye

â€œ

I have tried to find a way
To shade the light, to stay awake
I will follow you into the night

â€œ

Sun breaks through, I see the beast inside of you
(inside of you)
So not cool, the heartache that you put me through
(you put me though)

â€œ

Caught between the black
Nowhere to hide
Sleep, eternal love
Time passing by

â€œ

I have tried to find a way
To take your pain, to make you stay
Take my fears and have your way tonight

â€œ

Sun breaks through, I see the beast inside of you
(inside of you)
So not cool, the heartache that you put me through
(you put me through)How could you treat me like I'm something new?
(like I'm something new)
Pushing you to get to what is real and true
(what is real and true)

â€œ

This empty mirror
The image cold and clear
I will never stray
With you I will always stay
In this bond
Our peace will never come
As we walk
Into oblivion

â€œ

Sun breaks through, I see the beast inside of you
(inside of you)
So not cool, the heartache that you put me through
(you put me through)How could you treat me like I'm something new?
(like I'm something new)
Pushing you to get to what is real and true
(what is real and true)To get to what is real and true....
