

Girlfriend

Boy George

I came in here tonight
Just like all of you
Looking for some fun
Something nice to do
Yeah, something nice to do I've got the feeling
You must be screaming
Your love is walking away
I've got this feeling
You must be screaming
But I just wanted to say Girlfriend, everybody needs
A boyfriend,
Cos when you've got a boyfriend
You've got something else to do I'm throwing down tonight
Just like all of you
I'm looking for wome fun
Nothing less to lose
No, nothing else to lose I've got the feeling
You must be screaming
Your love is walking away
I've got this feeling
You must be screaming
But I just wanted to say Girlfriend, everybody needs
A boyfriend,
Cos when you've got a boyfriend
You've got something else to do If you want to keep your man
Be a devil if you have to
Hold on to him girl
There are those that will
Defeat you
There are others that
Will leave you dry
Go on girl
Take your love and wrap
It around
The first sucker that you meet
What's the matter honey
Did your neck throw up?
Just get off my face
