Jag In a Jungle

Brite Futures

I'm feelin' like a jag in a jungle
Maybe we can stumble home to my bungalow
We got a knack for the naughty
Come on, lets ditch this party
I don't need to get lucky
'Cause luck's got nothing to do with it
Hot shot players don't got a shot
'Cause I always get what I want
They ask me all the time how I do it
Maybe I don't try I just do it
No, there's no lucky charms on my rainbow
but there's a pot of gold with your name on it
[Chorus]
I don't need no rabbit's foot
I don't need no four leaf clover
I don't need no shrunken head
I don't need no jade turtle
I don't need no fingers crossed
'Cause luck's got nothing to do with me and you
[Chorus]
