

Good Man Shining

[John Norum](#)

Seems like mother Mary answers my prayer
I'm back in circulation
A bad reputation has colored my skin
Black finger tips are the blessing you bring
I gotta change my direction
People are paying my bail
I'm all out of luck, what am I gonna do...
I guess I never learn
Good man shining
It's all over you
Good man shining
It's coming through
Well my point of view is sex appeal
Burning out like a spinning wheel
My sweet little angel my heart you can squeeze
Doctor, Doctor please
When I'm tired and lonely
My heart is out on the fence
The last thing I look for is your kind of love
I guess I never learn
Good man shining
It's all over you
Good man shining
It's coming through
I gotta change my direction
People are paying my bail
I'm all out of luck, what am I gonna do...
I guess I never learn
Good man shining
It's all over you
Good man shining
It's coming through
Good man shining
It's all over you
Good man shining
It's coming through
