

Caress

Deftones

Gracie, we're makin babies, yea, we're barefoot on the tiles / we make 'em
soft and small and tender, it's the biggest hazard of your gender, gotta
hold it by yourself / Gracie, hold yourself together, it's bad now but it
gets better, we're all here to help / everything is swollen, everything is
swell... everybody's watching, they all wanna see it kick - pleasure is
your crime, junior is your punishment, happens all the time, everybody rub
it in. It ain't hard to find fault in any thing you do, we learned to love
the hard way, you're gonna learn it too. - etc.
