

Subliminal Fascism

Fishbone

People got problems that they can't work out
So their sense cracks
I read the paper and I watch the news
It don't give me the blues It just gives me the blacks
Starvation on the radio
They don't play the facts
They play the crackerjacks Subliminal fascism gettin' under your skin
So you better wake up U.S. Well, the bad gets worse, too fucked up
And the hate grows more each day
So when the infected try to effect you
Don't listen to them when they say Follow the rules and forget the bomb
Communistical patriotic
The plan is subtle but it's in the open
Kingpins Nazi scheme getting under your skin So you better wake up U.S. Subliminal fascism
Subliminal fascism
Fascism, fascism, fascist
