Create Me

Neil Diamond

Days break, nights fall
And I wait alone
I sleep behind a wall
My silent call unknown

Create me
Create me

Take me in your hands and shape me
Wake me from this sleep to then begin again
To live again

Create me
Create me
Create me

Days break, nights fall
Each one the same
I wait behind a wall
To hear you call my name

Create me
Create me

Breathe your life into my soul
And know the greatest story told
Is you and I and how we tried
And how we won and what You've done

Creating me

How many seasons have we endured?
How many fields yet to plow?
Know that my destiny is tied to yours
Just need to trust me; our destiny is now

Create me

Lift me up and give a meaning
To a dream that I've been dreaming, endlessly

It comforts me to see you there
There you are; we've come so far

How many seasons have we endured?
How many fields yet to plow?
Know that my destiny is tied to yours
Just need to trust me; our destiny is now

Create me
Create me
Create me

Days break, nights fall
I dream alone
