

I Can't Explain

Surfer Blood

[Verse 1]

On a New Year's Eve
Celebrations full of life
At a loss for words
And eye contact throughout the night
Lost in our game we play
Faces trying to look sincere
But it's alright tonight
If I never stray too far from here[Chorus]

I can't explain

I can't explain[Chorus][Verse 2]

We're a rare isotope
Not commonly found in cities like these
Ordinary words on
Methylenedioxyamphetamine
You're the girl of my dreams
Trapped within my false awakenings
Forgotten, you're not sure
A recurring first meeting[Verse 3]

If we're nothing

Disguised as something
I can almost taste your lips
Our eyes close in full eclipse
Your taste is sour
With bitter carbon

And I can open your mind
And hold me inside[Bridge]

And open your mind

(I can't explain)

(I can't explain)

And open your mind

(You're the only one who)

(You're the only one who)[Bridge] x7[Instrumental][Chorus] x7
