

Bet No One Ever Hurt This Bad

Linda Ronstadt

Sit by my window, watch the rain
I hear it beatin' on my window pane
All the troubles I had
Bet no one ever hurt this bad
My baby left me all alone
Wait for a letter, sit by the phone
It makes me so sad
'Cause no one ever hurt this bad
Since you went away, I can't face the day
Night brings nothing but pain
I thought I could go on, I see that I was wrong
Baby, please come home, I just can't stand to be alone
Somebody, somewhere hear my plea
Send my baby home to me
It would make me so glad
'Cause no one ever hurt this bad
Since you went away, I can't face the day
Night brings nothing but pain
I thought I could go on, I see that I was wrong
Baby, please come home, well, I can't stand to be alone
Somebody, somewhere hear my plea
Send my baby home to me
It would make me so glad
'Cause no one ever hurt this bad
Sit by my window, watch the rain
I hear it beatin' on my window pane
Sit by my window, watch the rain
I hear it beatin' on my window pane
