Pop Trash Movie

Duran Duran

Some close up of your pretty face
Overnight sensation
Smiling, for cameras
From all around the world
If I rewind back to yesterday
And start the tape back
No one knew who you were
But now they're at your door
I'm living in a pop trash movie
We star together in every scene
We'll all be famous for just a few minutes
Part of a celluloid dream
Watching, slow mo going frame by frame
Mud of blood, my vision
Your life went flashing by
Where did it all go wrong?
I'm living in a pop trash movie
We star together in every scene
We'll all be famous for a fifteen minutes

Part of a celluloid dream
I'll wait in the wings for you
I'll read your lines to you
But now the script is final
You know it's time to go
So we'll have to say, goodbye
I'm living in a pop trash movie
We star together in every scene
We'll all be famous for those fifteen minutes
Part of a celluloid dream
We star in every scene
And it's never quite what it seems
(Never)
I'm living in a pop trash movie
I know we'll make it with that pop trash, yeah
We'll all be famous for those fifteen minutes
Part of a celluloid dream
