

# Pop Trash Movie

## Duran Duran

Some close up of your pretty face  
Overnight sensation  
Smiling, for cameras  
From all around the world  
If I rewind back to yesterday  
And start the tape back  
No one knew who you were  
But now they're at your door  
I'm living in a pop trash movie  
We star together in every scene  
We'll all be famous for just a few minutes  
Part of a celluloid dream  
Watching, slow mo going frame by frame  
Mud of blood, my vision  
Your life went flashing by  
Where did it all go wrong?  
I'm living in a pop trash movie  
We star together in every scene  
We'll all be famous for a fifteen minutes

Part of a celluloid dream  
I'll wait in the wings for you  
I'll read your lines to you  
But now the script is final  
You know it's time to go  
So we'll have to say, goodbye  
I'm living in a pop trash movie  
We star together in every scene  
We'll all be famous for those fifteen minutes  
Part of a celluloid dream  
We star in every scene  
And it's never quite what it seems  
(Never)  
I'm living in a pop trash movie  
I know we'll make it with that pop trash, yeah  
We'll all be famous for those fifteen minutes  
Part of a celluloid dream
