I Know

Tom Odell

Cold house, white light
Yellow lamps and black in the skies
Full holes in deep brown eyes
I sing you a song that i think you'll like
And we walk to places we always go
A million faces, I don't know
I say the words I always hope that your heart is racing
(even though)
[Chorus] x2
I know what you told me
I know it's all over and
I know I can't keep calling
Every time I run (yeah)
I keep on falling (on you)
The way I stand

The way I sway
The way your hair coats in the rain
The little lines that written on your face
On the winter nights when you come and stay
The way you hit me when you wanna fight
The way I'm young, the way I cry
The way I love rose with the ties
But we know it won't make up every time
[Chorus] x2
[Bridge]Oh you bring me all the things I need
I follow the rain to the rolling sea
I love you baby all the things I lay
[Chorus]
