

# Someone Take My Heart Away

## The Edgar Winter Group

Look through these eyes and tell me if you see  
What in the world it is that's wrong with me?  
Please take my hand and try to pull me through  
I know it's wrong to try to cling to you Someone take my heart away  
I don't think I can stand the pain  
Do it soon without delay  
I never want to love again, love again Please take these words and try to understand  
I can't be more to you than what I am  
I've given everything I had to give  
My life is all that I have left to live Someone take my heart away  
I don't think I can stand the pain  
Do it soon without delay  
I never want to love again, love again You can have my money, you can take my name  
They'll never help me in this long lost game  
I gave emotion but you took my soul  
I gave too freely now I've lost control Someone take my heart away  
I don't think I can stand the pain  
Do it soon without delay  
I never want to love again, to love again To love again
