

# Some of My Fucked Up World

## Pray for the Soul of Betty

Send a little love  
Only one where you should go  
I want to take it real slow  
I wanna drink your body down Did...I know, I know, I know I didn't get enough  
Let me show you some of my fucked up world  
Do the music turn you on?  
Do it make you higher? Baby, are you down  
For a trip to lost and found? (my best guess??)  
I wanna keep it on the ground  
I wanna move you one more time I know, I know, I know I didn't get enough  
Let me show you some of my fucked up world  
Do the music turn you on?  
Do it make you higher? Babe, I know... I know, I know, I didn't get enough  
Let me show you some of my fucked up world  
Do the music turn you on?  
Do it make you higher? Where did we go?  
I thought I felt a vacancy  
Took me straight through the night  
I wonder, did you feel it?  
I can be anything you hoped or could envision  
Now, what ever happened to love?  
What happened to our love? I know, I know, I know I didn't get enough  
Let me show you some of my fucked up world  
Do the music turn you on?  
Do it make you higher? Shut up...I know, I know, I know I didn't get enough  
Let me show you some of my fucked up world  
Do the music turn you on?  
Do it make you, do it make you higher? Where did we go?  
I thought I felt a vacancy  
Took me straight through the night  
I wonder, did you see it?  
I can be anything you had hoped or could envision  
Now, what ever happened to love?  
What happened, happened to my love?
