

# Can I See You

## Hootie & The Blowfish

I thought the ghost was starting to fade  
It hadn't haunted me in days  
Just when the sun was coming through  
Coincidence out of the blue I see you with a smile  
You knock me to my knees  
You don't mean to me  
But you still got that hold on me  
When I see you It happens when I'm all alone  
Sometimes, your presence is so strong  
I try to sleep, turn out the lights  
Say my prayers and close my eyes And I see you with a smile  
You knock me to my knees  
You don't mean to  
But you've still got that hold on me  
When I see you Anytime of day, anywhere I go  
Any song on the radio  
I hear your voice, I feel your touch  
In the strangest places you show up Can I see you Can I see you, with a smile  
You knock me to my knees  
You don't mean to  
But you've still got that hold on me, yeah, now Can I see you  
Can I see you  
Can I see you
