Monster

Twiztid

Fuck you and your platinum chains
I'd rather rip out your intestines and wear it on my neck just the same
Makin? a charm outta your brain and havin? the gall to give it away
To your moms and pops in a box marked 'Remains'
Blood stains these veins
In the way that I can only explain is insane
The world's gonna celebrate when I hang
And I just hope that it's on T.V. like Saddam Hussein
And I just hope that you could be me for just one day
Then you would get a better sense of what the fuck I say
I said, bitches ain't shit, God bless the dead
And fuck every last bitch that won't give up some head
I smoke 15 packs in a day and I'm gettin? worried now
?Cause every time I cough, my hearin? is gettin? blur
I ain't a hater, player, just ain't no suckers allowed
And you and that bitch that was dancin? are just way outta bounds
It came in the dark where most were fast asleep
(Monster)
Creeping, aching for blood down bellow the streets
(Monster)
If you get caught in the gaze of his evil eyes
(Monster)
You will know true horror as your body slowly dies
(Monster)
Yo, black magic, devil horns, wake the devil, we perform
We'll weigh more bodies and dead by dawn
Ill child, Black Label Society
We Zakk Wylde on you bitches, so live in fear of the enemy

My conscience told me let it be but vengeance had a remedy
To kill 'em all and split up they atoms just like it's chemistry
And scratch skin from your face like a plastic surgeon
And leave you twitchin? in pain, screamin? behind the curtain
I'm for certain with a look like bloody-face Uncle Frank
Most of these home grown killas who claimin? that they dank
When they shit ready to sink, board a log like monster tombs
But we're mere transformation, alive inside of cocoons
Nursin? the wounds of many battles, turn cities to tombs
'Coz we're close to the end, so what the fuck we got to lose?

Straight killas with enough ammunition to take the planet to war
Most of these villains don't even know what they dyin? for
I can't stop it, I can't stop it
I can't stop it, I can't stop it
I can't stop it, I can't stop it, I can't stop it
Site of the blood makes me wicked, takes me to another place
Fallin? in love can't be controlled but I know that it's bound to change
All of my life and all of the time the chemicals are a friend of me
Can't be controlled, in search of result, the monster's got the best of me
And I will choke and stab, and separate the feelings from me
Until they're all gone like none of them ever belonged
As I continue to change in search of the things that I really wanna be
Although the journey's long, I keep repeatin? this song
It's not a fear, the monster is alive and in me
But I pray, I pray to the Lord every night I go to sleep
It's not a fear, and if I should die before I awake
But I pray, I pray to the Lord my soul be afraid
