

# Ahead of the Light (Instrumental)

MIYAVI

Get ahead of the light  
No mercy  
Crushing depression  
Chasing your shadow  
Sight in ruins  
Like lost soldiers  
I keep on running  
Sweat of iron  
Your scent lingers  
Run  
In my head ringing (run)  
Of an evil calling (run)  
From self-darkness (run)  
Temptation to the madness (run)  
He'll pull, grab on my back to lead me to surrender (run)  
On a one-way road closer  
Never turn back  
Get ahead of the light  
Pass the supersonic, everything's gone behind me  
Go beyond the limit, space and time round and round  
Ain't no stopping till I catch you over the light  
Hope is faded  
Foxes are ruling  
Fallen blossoms  
The clouds burning  
Run  
In my head ringing (run)  
Of an evil calling (run)  
From self-darkness (run)  
Temptation to the madness (run)  
He'll pull, grab on my back to lead me to surrender (run)  
On a one-way road closer  
Never turn back  
Don't you fall back tonight  
No one can touch us, even shooting stars are lagging  
We can step in time everlasting dance on and on  
Now we bask in the light  
Get ahead of the light  
Pass the supersonic, everything's gone behind me  
Go beyond the limit, space and time round and round  
Ain't no stopping till I catch you over the light  
Stay here beyond the light  
Stay here beyond the light  
Stay here beyond the light
