When I'm With You

Kevon Edmonds

Back in the day
I used to treat my lady any kind of way
I always ended up alone
But now I changed
Cause you showed me how to love
And I appreciate all your tenderness1 - Without you
Nothing really matters in this world
I wish time would stand still
When I'm with you
Everything revolves around you girl
I wouldn't last a dayI gotta say
Spending time with you is like a holiday
And it makes you feel so good
Day by day
My love for thee gets stronger
And I appreciate your sweet tendernessRepeat 1 (2x)2 - You changed me
So in love unconditionally
Cause of you I'm a better man
Never leave my side
Cause I'll go crazy
Out of my mindRepeat 1 (2x)Repeat 1 & 2 till end
