Mistletoe

Abraham Mateo

[Incomprehensible] fake plastic mistletoe
'Round me in a great big bowl and share me your part
It's Christmas time so open up the flood gates
Tell me that you'll be late and rent me your car
'Cause you say that
You say that things will be alright
But I've heard that
I've heard that so many times and I know that
It's not Christmas if the snow don't fall
And I'm still standing here three feet small
Lose our troubles because after all it's Christmas time
It's Christmas time
Cold icing on a wild [Incomprehensible]
Slip into the games we play, we're falling apart
A great big house, we made out of tender grass
Grown to see the ground, we're breaking apart
But you said that
Said that things will be alright
But I've heard that
I've hard that so many times and I know that

It's not Christmas if the snow don't fall
And I'm still standing here three feet small
Lose our troubles because after all it's Christmas time
And I've been waiting for you to come
It's hard 'cause I feel so alone
And I just want you to come home
Waiting for you to come
It's hard 'cause I feel so alone
And I just want you to come home
It's not Christmas if the snow don't fall
And I'm still standing here three feet small
Lose our troubles because after all it's Christmas time
It's not Christmas if the snow don't fall
You're not here to came to keep me safe and warm
Lose our troubles because after all it's Christmas time
It's Christmas time again
All your friends, all your friends are smiling
It's Christmas time
