

I Cast My Bread Upon the Water

Gold City

I cast my bread upon the water by helping my brother. Struggling on life's stormy sea. I'll be sowin a good by seed by doin a good deed. That'll come back, come back to me.

Well I picked up the good book and took me a long look. I believe that each and every part. But I sure rejoice in knowing about the reapin and the sowin I really took that lesson to my heart.

I cast my bread upon the water by helping my brother. Struggling on life's stormy sea. I'll be sowin a good by seed by doin a good deed. That'll come back, come back to me.

Well I can't buy my way to Heaven. But there's a heaven a waitin purchased by our good and lovin Lord. And go on a strivin, trustin, and survivin holding on expecting my reward.

So, I cast my bread upon the water by helping my brother. Struggling on life's stormy sea. I'll be sowin a good seed, by doin a good deed. That'll come back, come back to me.

(So, I cast my) bread upon the water (on the water) by helping my brother (my brother). Struggling on life's stormy sea. (And, I'll be) sowin a good by seed by doin a good deed. That'll come back, (come back) come back to me.

So, I cast my bread upon the water by helping my brother. Struggling on life's stormy sea. And, I'll be sowin good by seed by doin a good deed. That'll come back, (come back) come back to me.

I cast my bread upon the water by helping my brother. Struggling on life's stormy sea. And, I'll be sowin a good by seed by doin a good deed. That'll come back, (come back) come back to me.

Yes, It's gonna come back, come back to me.
