

Midnight Strikes

[LaFee](#)

Dark it's oh so dark
Fear comes creepin
The nightmares bout to start
Steps, its him again
He's got that hunger, she can't comprehend
Hush now, you need to hush now
He whispers "look who's coming now" Midnight strikes in the darkest night of her life, she cries
All her dreams are dyin'
Midnight strikes in the darkest night she's in tears
She hears a million angels screamin' in pain A child she's just a child
But that don't stop his mind from runnin' wild
Cold she's oh so cold
So helpness as evil unfolds
Hush now, you need to hush now
He whispers "look who's coming now" Midnight strikes in the darkest night of her life, she cries
All her dreams are dyin'
Midnight strikes in the darkest night she's in tears
She hears a million angels screamin' in pain Midnight strikes in the darkest night of her life, she cries
All her dreams are dyin'
Midnight strikes in the darkest night she's in tears
She hears a million angels screamin' Midnight strikes in the darkest night of her life, she cries
All her dream are dyin'
Midnight strikes in the darkest night she's in tears
She hears a million angels screamn' in pain
