

# I Love You

## Jerry Jeff Walker

Jerry Jeff Walker I've been a fool, fool hearted, stumbled once or twice  
You came and put me back on my feet  
Patchin' together all the busted pieces  
Of everything that I'd broken runnin' from me Chorus I love you, yeah I love you Some day we're gonna travel  
far away  
We're gonna roll all the way to la Louisiana  
Maybe we'll just roll around in bed all day I'd like to give you everything you'd ever want love  
Diamond rings for every toe  
Danglin' earrings for your fingers  
Big sparkling rocks for your nose Chorus Been so long, coming through to you  
Now it's nice restin' by your side  
Seems like everything rolled in a nutshell  
We got it all right here inside Chorus x 2 Cause gettin' out of bed just ruins my whole day  
Besides that the way I heard babies are made
