

Shake Somethin (feat. Problem & Tiffany Foxx)

Cali Swag District

Turn up K, bad bitch drained, treat a bitch bad with this ding-a-ling-a-ling
Ballin' with my team all day, champion, I'm bad
I'm hoping to leave my kids there like in daycare
Shining brighter than a big lamp, we loud like we looking through a big app
Blowing in your face, put my hands around your waist
Let me do this, let me run that pussy like a race
Dirty like Snoop, murder was the case, though
Mulito caliente, Nino and my base hoes
Die by the cash load, die for my change, low
Racks on racks, all stacks she came for
We get it like we do, if you're getting money then yeah, me, too
Yeah, me, too, yeah, me, too
Watch your motherfucker girl if I miss the detour
I'mma toss money, I need you to shake something
I'mma take your money and then I'mma shake something
I'mma toss money, I need you to shake something
I'mma take your money and then I'mma shake something
Shake something, shake something, shake something, shake something
Shake something, shake something, shake something, shake something
Shake something, shake something, shake something, shake something
Shake something, shake something, shake something, shake somethingShe a flirt, lil' money twerk, she be
getting money, she be putting it to work
I say she on, she on her shit, she bring her ass up then she bring it to a split
Then she look good, then she look good
Ratched lil' bitch coming straight up off the hood
My nigga, she banging, throw it up, banging
She really what the bull team need to claim
I loves my man, twerking around
Instagram baby, I'm twerking all night
You blow the town, make that recline, ass so big it move it outside
I ain't gotta rap ... in a trap, track your car black as ... I track
As a matter fact pull up and ... that bag watch me hold a hundred bands, pay your back
I'mma toss money, I need you to shake something
I'mma take your money and then I'mma shake something
I'mma toss money, I need you to shake something
I'mma take your money and then I'mma shake something
Shake something, shake something, shake something, shake something
Shake something, shake something, shake something, shake something
Shake something, shake something, shake something, shake something

Shake something, shake something, shake something, shake something
My bitch got a booty like a hippo
She a freak on the low, I got the info
Lil' bitch learn to eat hot Cheetos
She got me going on my draws, no speedo
A lil' bitch, yeah, I let her take wiener
Double D in double beamer
She in her sick 'cause her older brother bang
But she going red G and she gang
And once we pull up to the club she kill
She keep a blunt and she keep her drink fill
Everybody tryina hit her on the low
A quick quicky, I'mma hit her on the go
I'm in a back, bad bitch contest
On Instagram every day she flex
Body right, pussy tight, get wet
Top her molly let your body keep sweat
I'mma toss money, I need you to shake something
I'mma take your money and then I'mma shake something
I'mma toss money, I need you to shake something
I'mma take your money and then I'mma shake something
Shake something, shake something, shake something, shake something
Shake something, shake something, shake something, shake something
Shake something, shake something, shake something, shake something
Shake something, shake something, shake something, shake something
