

Stay The Night

Zedd

[Hayley Williams]

I know that we are upside down

So hold your tongue and hear me out

I know that we were made to break

So what? I don't mind. You kill the lights, I'll draw the blinds

Don't dull the sparkle in your eyes

I know that we were made to break

So what? I don't mind. Are you gonna stay the night

Are you gonna stay the night

Oh oh oh, are you gonna stay the night? Are you gonna stay the night

Doesn't mean we're bound for life

So oh oh, are you gonna stay the night? [beat break] Are you gonna stay the night

Doesn't mean we're bound for life

So oh oh, are you gonna stay the night. I am fire a gasoline, come pour yourself all over me

We'll let this place go down in flames only one more time

You kill the lights, I'll draw the blinds

Don't dull the sparkle in your eyes

I know that we were made to break

So what? I don't mind. Are you gonna stay the night

Are you gonna stay the night

Oh oh oh, are you gonna stay the night? Are you gonna stay the night

Doesn't mean we're bound for life

So oh oh, are you gonna stay the night

Night night night night night.... [beat break] ARE YOU GONNA STAY THE NIGHT [beat break] Are you gonna stay the night

Doesn't mean we're bound for life

So oh oh, are you gonna stay the night (Zedd: Are you gonna stay the night

Are you gonna stay the night

Oh oh oh, are you gonna stay the night)
