Next Time Around

Lit

Well I'm dreaming 'bout a Cadillac
And a girl that I used to have
But I know that I could never go back
To the day we took a photographThat I'm holdin' in my hand
I can't believe I messed it up so bad
If I get another chance
I'd never waste it yeah
I swear I'll be a better man
And I'll tell you right now
I'll make it up next time around(Yeah)
I'll pick you up and never put you down
Next time around
(Yeah)
I'll lift you up and never let you down
Next time aroundNow I'm thinkin' 'bout the good times
All the friends that I used to know
And they always said they'd have my back
But now I'm flyin' soloAll alone again I stand
I can't believe I messed it up so bad
If I had another chance
I'm gonna make it right
I'll try and be a better man
And I'll tell you right now
I'll make it up next time around(Yeah)
I'll pick you up and never put you down
Next time around
(Yeah)
I'll lift you up and never let you down
Next time around(Yeah)
I'll pick you up and never put you down
Next time around
(Yeah)
I'll lift you up and never let you down
Next time around
(Yeah)(Yeah)
I'll pick you up and never put you down
Next time around
(Yeah)
I'll lift you up and never put you down

Next time around
