Homesick

Thirsty Merc

Lotta kids with a homesick view
Deep down
I know that Ive been homesick too
But something tells me its alright
I know Ill be back in your arms tonightIve traveled down some lonely roads
Al most lost my wayI would give all my time
just to spend my nights with you
I would lay down my fears
Just to spend my years with you
Cause when Im standing at your door
I dont feel homesick anymore
When Im standing at your door
I dont feel homesick anymoreAnd after all I said and done
Weve made the most of loveI would give all my time
just to spend my nights with you
I will lay down my fears
just to spend my years with you
cause when Im standing at your door
I dont feel homesick anymore
When Im standing at your door
I dont feel homesick anymore
