Hatchet To The Head

Cannibal Corpse

Skull fragments are flying through the air
Brains and blood scattered just about everywhere you look
Swing of the hatchet gives permanent damage
Head fractured, gaping hole to incise the craniumSlit open crushed eyeballs dripping hanging from the sockets
Steel cracked bone with fatal trauma to the cerebellum
Useful lust of goreHatchet to the headRekindled gore obsess rend the weak
Mutilate then murder consciously
Death brought to the enemies of the past
A life of beheading I must have
Pure revenge is burning inside meSlit open crushed eyeballs dripping hanging from the sockets
Steel cracked bone with fatal trauma to the cerebellum
Useful lust of goreHatchet to the head, hatchet to the head
Hatchet to the head, hatchet to the head
Hatchet to the headForced from deep inside to hunt you
Bludgeoned torn apart veins erupted
Forever headless rotting corpse
Recognition you are now beyond
Wretched, onslaught, slaughterFaceless flesh remains from the victims
Hacked with brutal force until slain
Consumed with anger, lunacy
Relentless killing dependencySlit open crushed eyeballs dripping hanging from the sockets
Steel cracked bone with fatal trauma to the cerebellum
Useful lust of goreHatchet to the head, hatchet to the head
Hatchet to the head, hatchet to the head
Hatchet to the head, chop it off
