

# Advance Upon the Real

## Perfect Pussy

I have limitations when it comes to my desiring  
And complicated feelings on desire and desiring  
I need constant reinforcement  
I'm at best a step removed from what's considered natural  
I'm at worst disinterested in what's considered lovable  
Love is love  
But power is power  
The challenge now is to climb down from the wall and try what might have been  
Develop and negotiate the secret space there between what I do  
And what I say regarding fucking  
But I won't, cause you I'm God in human form  
You've never met anyone like me before  
Stop me if you've heard this one before  
If you promise to stay drunk or devoted  
Then I'll do my best to stay for a while  
And I know you'll never leave  
You'll love me endlessly  
But I got no desire left in meI don't understand attraction  
All attraction involves fear  
And all fear is desire  
I'm an advance upon the real  
Not a step up from others, but a step away  
I'm waiting in the interim of her and other her and him  
Too dangerous to care for, too curious to pass by  
Too interesting to love  
But you're cool, so you'll try  
And for a while things are gonna be just fine  
Everything is gonna be fine  
I've been God in a rose  
I've been woven into quilts and a hundred bad songs  
And I've done so much wrong  
And because of me you can't like that one band anymoreStop me if you've heard this one before
