

Johnny Met June

Shelby Lynne

Got some news today from the radio man
He spoke the words softly and as somber as he can
 The world stood still and the sky opened up
 made my way to fill up my coffee cup.
Then it occurred to me as the daylight sky shone blue
 Today's the day that
Johnny met June. He waited a while he knew that he would
 He was gonna hang around here for as long as he could
 The days went by and hours idle passed
 He was never sure just how long he would last
 But there's not much love in a lonely room
 Today's the day that
 Johnny met June Hey my darlin' hey my sweet
 I've waited on the day that I knew we would meet.
 Hey my sun, hey my moon
 Today's the day that
Johnny met June. Now we're starting over it's the place that we are
 You look more than pretty underneath all the stars
 Love, love is a burning thing
 Oh how I still love to hear you sing
 And everything we ever heard about heaven is true
 Today's the day that Johnny met June
 Today's the day that Johnny met June.
