In Faith I Follow

The Wilds

In faith I follow on the path though the way is hid from view my soul is trusting in your will I gladly lean on you
Chorus
Lead me on Loving Shepherd I rest in all you are keep my gaze on only you Lord strengthen now my fainting heart

In faith I follow on the path though I'm worn by fear and care refresh me with unending joy to lift me from despair
Chorus
Lead me on Loving Sheperd my refuge and my shield keep my gaze on only you Lord to your will my soul does yield.

In faith I follow on the path neath the shadow of the cross you freely gave so I could live I count all gain as loss
Chorus
Lead me on Loving Sheperd I kneel before your throne keep my gaze on only you Lord my life is not my own

In faith I follow on the path soon I'll see you face to face in times of pain I need your strength to finish strong the race
Chorus
Lead me on Loving Sheperd affliction I will bear keep my gaze on only you Lord glory comes beyond compare
Keep my gaze on only you Lord
Glory comes beyond compare
