This Is Old

State Shirt

Beaten down for so many years
It's just a job but that never finds an end
Drained and drunk
Can never give it up
Sell off your friends
Wake up and do it all againI hate all that I've become
and I hate every part of you
I've tried to drop out of this life
and abandon this divide
This is old, this is getting oldCome down off your ladder
Leave it standing up to nowhere
Drained and drunk
Can never give it up
Beneath this all
Wait for you to fallIt's too late to turn back now
I'm much too old to break nowI hate all that I've become
and I hate every part of you
I've tried to drop out of this life
and abandon this divide
This is old, this is getting old
The rope is so tightly wrapped around my neck
I have nothing left to fight
This is old, this is getting oldThe finest things in life I will always refuse
The worst things in life I will always abuse
