

Trap (Mastered)

Camp Claude

I won't fall into your trap
You don't get me just like that
But it ain't easy to begin,
When the words are coming in
I won't fall into your trap
I won't fall into your trap
You don't get me just like that
I won't fall into your trap
And since you got that evil eye,
There's no one to be your spy
Feels like I'm walking on the mark,
You got me starring at the top
And I got nowhere else to run
Because we're colder than the sound
You try to get me all the time
Now I got somewhere else to hide I won't fall into your trap
I won't fall into your trap
You don't get me just like that
I won't fall into your trap
I won't fall into your trap
I won't fall into your trap
I won't fall into your trap
I won't fall into your trap
