Bermuda

Pomata

I found a better life in memories
Coastal water lines on the sea
And man it hurts me to do it
When my life's gone through it all
and I say I shouldn't, you see right through it all,
All all all, ohhhhAnd it's the price we pay when nobody will stay
For the love we made, it just don't work that way
Man it hurts me to do it
When my life's gone through it all
And I say I shouldn't, you see right through it al,
All all, ohhhhhhhAnd it feels like changing fortune, theirs a long way back
They say that if the clock is right it's a bad time
Because you crushed our love
ohhhhhhhhhh
ohhhhhhhhhhBermuda, in the night you dance with me
I thought that all my friends were over meAnd man it hurts me to do it
When my life's gone through it all
And I say I shouldn't, you see right through it all,
All all, ohhohohohoAnd it's the price we pay, when nobody will stay
For the love we made, it just don't work out that wayMan it hurts me to do it
When my life's gone through it all
And I say i shouldn't, you see right through it all
All, oh oh ohAnd it feels like changing fortune, there's a long way back
They say that if the clock is right it's a bad time
Because you crushed our love
ohohohoh
ohohohohhBermuda, in the night you dance with me
I thought that all my friends were over me
Oh Bermuda, i'm alone
Bermuda, i'm all alone
