

Far (Blush Response Remix)

The Soft Moon

Take me far away
To escape myself
Cos I was born to suffer
It kills my mind
It kills me inside
Happens all the time Every time I try to fight
This life gets harder every time
And it kills my mind
It kills me inside
It kills me outside Take me far away
To escape my self
I was born to suffer
It kills my mind
It kills me inside
Happens all the time Every time I try to fight
This life get harder every time
It still kills me inside
It skill kills me inside
It still kills me inside
