

# One (Blake's Got a New Face)

## Vampire Weekend

Occident out on the weekend  
That's the way that we relax

English Breakfast tastes like Darjeeling  
But she's too cute to even ask

Blake's got a new face (Blake's got a new face)

Nastiness will cause your doom  
Turn and walk back to your room

The precedent's already set now  
You spend a week in Old San Juan

Spanish brownstone with chairs of leather  
And Spanish waves to roll along

Blake's got a new face (Blake's got a new face)

Majesty's not overheard  
Cryptographs can't stand the word

Blake's got a new face (Blake's got a new face)

Oh your collegiate grief has left you dowdy in sweatshirts  
Absolute horror!
