

Twin Rivers (Dan The Automator Remix)

Big Scary

Gonna have to wake up,
I don't wanna have to wake up.
Get up, get changed, game face,
I don't wanna have to wake up again this morning. Gonna have to wake up,
I don't wanna have to wake up.
Get up, get changed, game face,
I don't wanna have to wake up again this morning. And the conversation's so old,
We can't even muster a fight.
And my body goes cold,
When you turn off the bed-side light. Gonna have to wake up,
I don't wanna have to wake up.
Get up, get changed, game face,
I don't wanna have to wake up again this morning. Gonna have to wake up,
I don't wanna have to wake up.
Get up, get changed, game face,
I don't wanna have to wake up again this morning. This is my idea of fun,
All is lost and time is won.
I know we can solve this, We are no old souls.
I know we can resolve this. This is my idea of fun,
All is lost and time is won. This is my idea of fun (And the conversation's so old, can't even muster a fight),
Foreign thoughts and feelings none (And my body goes cold, when you turn off the bed-side light). I know we
can solve this,
We are no old souls.
I know we can resolve this. And nothing ever happens. Will something ever happen? Gonna have to wake up,
I don't wanna have to wake up.
Get up, get changed, game face,
I don't wanna have to wake up again this morning. Gonna have to wake up,
I don't wanna have to wake up.
Get up, get changed, game face,
I don't wanna have to wake up again this morning.
