

# Tidal Wave

[Josh Kelley](#)

It just stormed into my life like a hurricane coming  
Spinning around like a devil from horns to toes  
I was so damn comfortable till you jumped in my ocean  
I may not understand you but I'm learning as I go I'm just around the corner child, everything's changed  
I didn't see you coming but I, I love you anyway  
I want to give you something to take, to take away the pain  
I'm just ripples in your ocean, you're my tidal wave I've given up on yesterdays on a lonely situation  
Pushing down on a pedal, I'm gonna catch your storm  
Oh, you're so irresistible with your big imagination  
Well tie me up, mess around with me in your arms I'm just around the corner child, everything's changed  
I didn't see you coming but I, I love you anyway  
I want to give you something to take, to take away the pain  
I'm just ripples in your ocean, you're my tidal wave You'll find me 'cause I want you, oh, I gotta have you  
Yes please please, it's kinda crazy what you do to me  
Oh and I just can't seem to get enough I'm just around the corner child, everything's changed  
I didn't see you coming but I, I love you anyway  
I want to give you something to take, to take away the pain  
I'm just ripples in your ocean, you're my tidal wave I'm just ripples in your ocean, you're my tidal wave  
Oh, I'm just swimming in your ocean, you're my tidal wave
