

Tomorrow

Ladytron

I don't hate you or want you
Enough to wake you
There's a crack in the window
Return off the key in ignition
So if you freeze tomorrow
Come back lucky
We saw that your eyes were closing
There's a crack in the window
Return off the key in ignition
But I don't hate you or want you
Or celebrate you
So if you freeze tomorrow
Come back lucky
We saw that your eyes were closing
So if you freeze tomorrow
Come back lucky
We saw that your eyes were closing
But I don't hate you or want you
Enough to wake you
So if you freeze tomorrow
Come back lucky
We saw that your eyes were closing
So if you freeze tomorrow
Come back lucky
We saw that your eyes were closing
We saw that your eyes were closing
We saw that your eyes were closing
We saw that your eyes were closing
We saw that your eyes were closing
So if you freeze tomorrow
Come back lucky
