

Isn't That Everything

[Danielle Peck](#)

Yeah, yeah
I might not have a million dollars in the bank
But Ive got food on my table and gas in my tank
I might not have designer sheets on a king size bed
But I lay down at night with a roof over my headIve got friends that love me
A big blue sky above me
And your two arms around me, baby, every nightIsnt that everything? I dont need anything
Its only the simple things I believe
That matter most in life, Im more than satisfied
All that I have is all I need, isnt that everything?Now Im not saying I dont dream from time to time
Every girl I know loves the way a diamond shines
Oh, when the partys over and the glitter starts to fade
Its all about your piece of mind at the end every dayI know Jesus loves me
Up in that sky above me
I'll see the morning sun again and feel aliveIsnt that everything? I dont need anything
Its only the simple things I believe
That matter most in life, Im more than satisfied
All that I have is all I need, isnt that everything?Yeah, Ive got friends who love me
And a big blue sky above me
And your two arms around me, baby, every nightI know Jesus loves me
Up in that sky above me
I'll see the morning sun again and feel aliveIsnt that everything? I dont need anything
Its only the simple things I believe
That matter most in life, Im more than satisfied
All that I have is all I need, isnt that everything?
Isnt that everything? Isnt that everything?
