# Wake Up Dead

## Blowsight

Why not take turns?
It's something messy something good
Something never understood before
Why don't you learn?
This is a travesty for everyone
Learn and all your troubles will be goneYeah, why don't you turn the other card over?
See where you belong
I killed the sperm
But in the end I know the situation's wrong
The song should burn, but all the cold hearted people gave up
When will we learn?
This is a travesty for everyone and all your troubles will go
(I kiss life and turn it upside down)Oh!
If I never ever met you in person
And the web was all I had
Oh!
If I never ever met you in person
Well I guess I'd wake up dead
Oh!
'Cause you're giving me the fire I need
To be my own bony self again
Oh!
If I never ever met you in person
Well I guess I'd wake up deadSo what's the name of this relationship?
I'm hiding all the stories away
Girl what a shame
Oh, you better kiss this pretty face, it's getting lateOh!
If I never ever met you in person
And the web was all I had
Oh!
If I never ever met you in person
Well I guess I'd wake up dead
Oh!
'Cause you're giving me the fire I need
To be my own bony self again
Oh!
If I never ever met you in person
Well I guess I'd wake up...DeadWell I guess I'd wake up dead before the darkest skies
I'm on my way with opened eyes

And in the cold I wonder why
Why the hell you can't be mineOh!
If I never ever met you in person
And the web was all I had
Oh!
If I never ever met you in person
Well I guess I'd wake up dead
Oh!
'Cause you're giving me the fire I need
To be my own bony self again
Oh!
If I never ever met you in person
Well I guess I'd wake up dead
(In person)
Yes, I guess I'd wake up
(In person)
Yes, I guess I'd wake up dead
