Mighty

The Planet Smashers

Rich man, poor man better talk it over
Got a mighty Job, a mighty tall order
Task at hand can easily discourage
Not so far apart, we must encourage
It seems impossible but not so different
Answers can't be found in silence
Sounds in the sunset calling for justice
I believe it's time that we discuss thisMighty, Mighty
Each and all of us so mighty
Mighty, Mighty
That's right, we're all mighty
So mightyMy girl my love, yeah I'm gonna hold her
Weight of the world rests on her shoulders
Under pressure thought she gonna crack
But she said to me she got a mighty strong back
Bad times I should not despair
With a mighty big heart, and for someone to care
Mighty big loves calls for mighty big courage
Don't hold back, don't be discouragedMighty, Mighty
Each and all of us so mighty
Mighty, Mighty
That's right, we're all mighty
Mighty, Mighty
Each and all of us, so mighty
So mighty
