Jam For Jerry

DFA Records

You checked the mail and locked the door
You took the stairs downstairs from the third floor
You thought about her as you walked
Well did the sky open up above you in the darkAnd what a note to leave with rent
Did you know what's coming or even half know it when you leftYou set the tempo, set the pace
From the top, from the start, never slightly late
Just that afternoon we talked
Getting out, stepping out, let it out, something got caughtWhat about the time I heard you say
Were you only joking, or only half joking when you leftI get the feeling I've done
Something half wrong
It surrounds me and drowns me in it
If I could change it I would
If only I could
You can quote me and hold me to itWe dropped our records at the scene
Writing numbers on our hands, out of batteries
Called the cops, called the car
Call a friend, call a relative still in the darkTook the bridge in seconds flat
Call ahead to check in call ahead to ask them where they're atI get the feeling I've done
Something half wrong
It surrounds me and drowns me in it
If I could change it I would
If only I could
You can quote me and hold me to itYou can quote me and hold me
You can quote me
You can quote me
You can quote me
You can quote
You can quote
You can hold me
You can hold me
You can hold me
You can hold can hold meI get the feeling I've done
Something half wrong
It surrounds me and drowns me in it
If I could change it I would
If only I could
You can quote me and hold me to it
