

Days of Rock N Roll (Live at Wacken 2015)

Europe

I know it's late, but I've had enough
Let's go for a drive baby shake it up
The headlights cut, so deep these days
You give me that spark to light up the place
It's like we're going nowhere,
with just enough light to see
Now we're rolling down California 405,
The night is open wide
Oh how this world has changed
But tonight we're free again
Baby to walk everywhere
Well no-one is foolin' anyone
No exit signs on the road we're on
Heading out of nowhere,
With just enough light to see
Now we're rolling down California 405,
The night is open wide
Oh how this world has changed
But tonight we're free again
Baby to walk everywhere
Now we're rolling down
California 405,
The night is open wide
Oh how this world has changed
But tonight we're free again
Baby to walk everywhere
