

We Got Married

[Paul McCartney](#)

Going fast, coming soon
We made love in the afternoon
Found a flat, after that
We got married Working hard for the dream
Scoring goals for the other team
Times were bad, we were glad
We got married I love the way you open up your hearts to each other
When you find a meeting of the minds
Just as well love was all we ever wanted
It was all we ever had Further on in the game
Waiting up till the children came
Place your bets, no regrets
We got married, we got married, we got married Nowadays every night flashes by
At the speed of light
Living life, loving wife
We got married Ohh, I love the things that happen when we start to discover
Who we are and what we're living for
Just because love was all we ever wanted
It was all we ever had It's not just a loving machine
It doesn't work out if you don't work out at it It's not just a loving machine
It doesn't work out if you don't work out at it It's not just a loving machine
It doesn't work out if you don't work out at it It's not just a loving machine
It doesn't work out if you don't work out at it
Oh, ooh, ohh It's not just a loving machine
It doesn't work out if you don't work out at it
Oh, ooh, ohh
